RECYCLE BINS

P

PNH HAS MORE THAN 47 YEARS OF EXPERIENCE IN THE METALLURGY AND METALLOMECHANICS SECTOR, CURRENTLY OCCUPYING A CONSOLIDATED POSITION IN THE MARKET OF PRODUCTION AND COMMERCIALIZATION OF EQUIPMENT IN STAINLESS STEEL, FOR THE HORECA INDUSTRY AND THE HEALTH SECTOR.

Based on a sustained growth policy and ensuring the fulfilment of the expectations of our customers, the PNH brand is recognized today as a reference in its area of activity.

The continuous investment in innovation and technology, help us to be present in highly demanding markets and allow us to have a portfolio of loyal customers, as well as their recognition.

We consider our Quality Policy as one of the fundamental pillars of the company's success, guiding us towards obtaining the best quality, a continuous improvement and the best possible performance.

Having in mind the importance of this process, we regularly evaluate our performance in order to achieve the objectives and targets set by us, adapting our Quality Policy to the constant evolution of activities, products, services and relationships with all stakeholders.

Our future translates into the relentless pursuit of maximum satisfaction for all who relate with us.

CERTIFICATION

In order to obtain the best quality, continuous improvement and the best performance possible, we are an **EN ISO 9001:2015 certified company**, awarded by SGS.

ISO 9001 is the most widely used Management Systems norm worldwide, and is the international reference for the Certification of Quality Management Systems (QMS).

The NF mark provides an indisputable guarantee that certified products are suitable for food contact.

The **NF certificate** for food hygiene, awarded by the AFNOR group, guarantees that our range of aluminium and polyethylene modular shelving meets safety use and quality standards, in accordance with current technical-sanitary regulations.

ECO-FRIENDLY

* All environmental aspects are systematically identified, controlled and monitored to ensure continuous improvement of environmental performance.

* The material used in our products is 100% recyclable.

* All cardboard packaging we use is 100% reusable.

* We guarantee the final treatment of the cardboard packaging, through a contract with the legally specialised Ponto Verde company.

* We guarantee the final treatment of the electrical products, through a contract with the company Amb3e, specialized for this purpose.

WASTE BINS

INDOOR AND OUTDOOR WASTE BINS SOLUTIONS
