4. Fit the worktop and screw from below (7x M5 screws);

## INSTRUCTIONS FOR USE

- After assembling the worktop with debris collar install in the desired location.

## MAINTENANCE AND CLEANING

- As it contains no electrical parts, the appliance can be immersed in water for more effective cleaning.

When cleaning the appliance, do not use abrasive products that could damage it. We recommend the use of a stainless steel cleaner.

**WARRANTY**

- ❑ The equipment is guaranteed for a period of 12 months from the date of purchase.
- ❑ The guarantee is valid against original defects, whether material or manufacturing.
- ❑ Whenever there is an anomaly in the equipment, it should be returned as soon as possible, enclosing the purchase document.
- ❑ When the guarantee is activated, the damaged parts will be repaired or replaced at the manufacturer's discretion. In the event of replacement, the damaged parts will become the supplier's property.
- ❑ Any and all faults resulting from poor installation or use/handling of the equipment are excluded from the scope of the guarantee.
- ❑ The equipment will lose its guarantee whenever any alteration/modification or even repair carried out by the user is identified.
