

# **GRELHADORES E PLACAS**

## Introduction:

Congratulations on the excellent choice you have just made...!

Before using the equipment you have just purchased, read the instruction manual carefully and completely.

**Installation, repair and adaptation must be done exclusively by qualified technicians.**

**Never use the appliance for purposes for which it is not intended.**

This equipment has been developed for professional use and should not be used by untrained persons. **Never allow to be used by children.**

For hygiene and safety purposes keep the equipment clean at all times.

For the clarification of possible doubts, keep the instruction manual during the equipment's life period.

## Features:

- General construction in stainless steel and cast iron;
- Tubular resistors;
- Current and call sign;
- Thermostat 50° - 300°;
- Suspension top plate by springs;
- Rilsan coated calibrated steel grabber;
- Stainless steel saucepan;
- Chromed rod with handle;

**General features table:**

Model	Measures Measurements (mm)	Measurement of Plates(mm)	Power (W)	Voltage (V)	Weight (Kg)
<i>Mini Simple</i> G01GN	280x320x290	250x250	1800	230	18
Mini Doble G03GN	560x320x290	250x250	3600	230	36
Mini Mixto G02GN	560x320x290	250x250	2800	230	28
Maxi. Simple G04GN	340x360x290	315x285	3000	230	24
Maxi. Doble G06GN	360x360x290	315x285	6000	230	45
Maxi. Mixto G05GN	680x360x290	315x285	4500	230	36
Super Maxi Simple G07GN	405x390x290	370x320	3000	230	28
Super Maxi Doble G09GN	780x390x290	370x320	6000	230	56
Super Maxi Mixto G08GN	780x360x290	370x320	4500	230	45
Simple Flat Plate	400x400x190	380x325	1500	230	17
Double Plate	570x360x170	565x305	3000	230	23
Giant Flat Plate	550x570x210	535x535	5000	230	39

## OPERATING INSTRUCTIONS

- To start up the appliance, switch on the power supply circuits installed in the mains. The signal light (2) is permanently on.

- To operate, turn the thermostat knob (4) to the required temperature; the corresponding signal light (3) turns on and off as soon as the hob reaches the selected temperature.

**THIS OPERATING MODE APPLIES TO THE MODELS OF THESE MACHINES**

### Cleaning and maintenance:

Before cleaning the appliance, make sure it is not hot.

Use a damp cloth for cleaning and detergent (non-aggressive) if necessary.

Make sure that during the cleaning process no liquids or foreign objects enter the inside of the unit.

### SAFETY REGULATIONS

- When choosing the place for the application of the equipment, make sure that it is not too close to materials or objects that could come apart or catch fire under the action of heat.
- Check that the supply voltage indicated on the rating plate of the appliance corresponds to the mains voltage and that the socket is earthed and can withstand the current indicated.
- The mains supply must include means for disconnecting the appliance, with a contact separation of not less than 3mm and in accordance with the legislation in force.
- When using the equipment, do not place cloth or objects that could be damaged on it.
- If you must move the appliance while it is hot, wear suitable gloves.
- When cleaning the appliance, make sure it is completely cool.
- Before carrying out any operation other than grilling, unplug the power cable.

- To clean the appliance, disconnect all power circuits. The appliance must not be cleaned with a jet of water.
- The appliance must be cleaned with a spatula and wire brush.

**WARNING: In case of malfunction never try to repair it yourself. Contact the manufacturer or a specialised technician.**

## **WARRANTY**

This appliance is guaranteed against manufacturing defects for a period of 24 months from the date of purchase.

All faults resulting from misuse, installation and transport not carried out by the supplier are excluded.

Also excluded from the guarantee are all modifications or repairs carried out by the user.

## **Reciclagem:**

This product and its packaging should not be treated as undifferentiated urban waste. Instead they should be placed in a collection point appropriate to the nature of the waste. Ensuring that this product is disposed of correctly will prevent potential negative consequences for the environment as well as for health.

The recycling of the materials will contribute to the better conservation of natural resources. For more detailed information about this product, please contact your local waste disposal service or the place where you purchased the product.

## **DIRECTIVE 2002/96/EC**

This symbol means that the product must be collected separately at the end of its life cycle. Do not dispose of it in municipal waste bins as normal household waste.

## **SYMBOL**

This product is manufactured in compliance with the Low Voltage Equipment Directive 2006/95/EC.
